ABSTRACT

This statistical report presents the results of a survey of educational services provided by State-operated institutions for delinquent and neglected children. Data was gathered from 257 institutions that received federal assistance under Title I of the Elementary and Secondary Education Act. At the time of the survey, participating institutions were providing educational services for approximately 49,000 delinquent and 5,000 neglected children. Introductory sections summarize the services provided and the Title I funds expended for education of delinquent and neglected students in the U.S., Puerto Rico, and the Virgin Islands, followed by more than 80 data tables showing participation in specific educational programs on a State-by-State basis. A copy of the complete survey form used in the data collection is included in the appendix. (JG)

FOREWORD

Fiscal year 1971 was the fifth year in which funds were provided under title I of the Elementary and Secondary Education Act, P. L. 89-10, as amended by P. L. 89-750, for supplementary services to neglected or delinquent children in the Nation's State-operated institutions.

This statistical report, prepared by the National Center for Education Statistics (NCES), is based on fiscal year 1971 data submitted by administrators of State-operated institutions across the Nation. It describes the services and activities provided for participating children and discusses the staff involved and the hours of training they received during the year.

NCES expresses deep appreciation to the State coordinators of the Consolidated Program Information Report (CPIR), the title I coordinators for State education agencies, and the institutional officials who were responsible for supplying data for this survey.

INTRODUCTION

In order to assist institutional officials to meet more fully the unique educational needs of neglected or delinquent children, the Congress in November 1966 amended the Elementary and Secondary Education Act (ESEA) of 1965 to include, under title I, benefits for children living in institutions for the neglected or delinquent. This was an important addition to the legislation for educationally disadvantaged children, for it recognized the importance of educational programs specifically designed to meet the needs of institutionalized children who have backgrounds of neglect or delinquency.

The majority of the children served by the program established under the legislation are delinquent children; neglected children are served by local rather than State facilities.

The guidelines* developed for the program define an institution for neglected children as "a public or private nonprofit residential facility (other than a foster home) which is primarily for the care of... children for whom it has assumed or been granted custodial responsibility ...pursuant to applicable State law...." An institution for delinquent children is "a public or private nonprofit residential facility which is operated primarily for the care of children who have been adjudicated to be delinquents...." In this report, data for neglected and delinquent children are analyzed separately.

The criterion for a State's eligibility for assistance is based on the average daily school attendance of those children aged 5 through 20 living in State-operated institutions and receiving free public education.

Responses were obtained from 257 (95 percent) of the 271 institutions in the universe. The responses include those of 48 of the 50 States (no data were received from Alaska and Kentucky), the District of Columbia,

Puerto Rico, and the Virgin Islands. The bulk of the information in this report concerns the States and the District of Columbia; a separate summary for Puerto Rico and the Virgin Islands appears on page 13. The numbers of eligible and responding institutions by State or other reporting area are shown in appendix A.

In fiscal year 1971, Federal funds totaling $16.4 million were approved for ESEA title I programs and program-related expenditures directed toward improving the quality of education for institutionalized neglected or delinquent children. Of these approved funds, the States and outlying areas reported expenditures of nearly $14.4 million during fiscal year 1971 for the major categories tabulated below:

Purpose	Expenditures		
	Total	For the neglected	For the delinquent
Total	$ 14,384,394	$ 1,566,023	$ 12,818,371
Direct educative services	8,572,776	903,525	7,669,251
Supporting services	2,354,567	344,939	2,009,628
Administrative, other supporting, and ancillary services	2,741,614	235,951	2,505,663
Capital outlay	715,437	81,608	633,829

The funds were expended for initiating or furthering the participation of 53,595 resident children in institutional programs. Of these children, 4,972 were neglected and 48,623 were delinquent.

THE STATES AND THE DISTRICT OF COLUMBIA

INSTITUTIONS FOR THE NEGLECTED

Pupil Participation by Type of School Attended

Institutions for neglected children in 19 States and the District of Columbia reported participation in programs funded inder ESEA title I. Nearly 5,500* children resided in these institutions. Throughout the year a total of 4,972 children (91 percent of the resident count) directly participated in title I programs (table A). A total of nearly $1.6 million in all categories was expended for these programs during fiscal year 1971. (Data concerning institutions for the neglected are presented in basic data tables 1-A through 9.)

Table A.--Participation in programs for neglected school-age children living in State institutions, by type of enrollment and level of schooling: ESEA title I funds, United States, fall 1970

Enrollment status and type of school attended	Participants					
	Total		Elementary		Secondary

* Some participants were not enrolled in school.

NOTE.--Because of rounding, percent detail may not add to 100.

* As of October 1, 1970.

Table A indicates that over three-fifths of the participants in ESEA title I activities were enrolled in schools within their institutions. Fourteen States and the District of Columbia reported 100-percent participation by residents enrolled in such schools. Eight States and the District of Columbia reported ESEA title I participation by residents attending public schools outside the institutions; six States and the District of Columbia reported participation by residents attending nonpublic schools. Although six States and the District of Columbia had residents who were not enrolled in any school, only one State, Iowa, reported nonenrolled children participating in title I programs.

Dropouts

Prior to admission to an institution, 589 neglected children were school dropouts. Of these, 508, or 86 percent, participated in fiscal year 1971 title I programs. Table 2 shows that pupils in this category were reported by 6 of the 19 States having such programs and by the District of Columbia.

Staff Positions

Slightly more than $1 million in ESEA title I funds were expended for staff salaries in institutions for neglected children, with the allocation largely applied to teachers' salaries. Forty-three percent of the 362 positions receiving funding were teacher positions. Wide differences in expenditure levels were reported among States; for example, teachers' salary payments ranged from an average of $364 per teacher in Maine to $8,339 in Tennessee.

The staff positions were distributed as follows:

Type of staff	Number	Percent
Total	362	100
Teachers	157	43
Other professionals	48	13
Education aides	102	28
Other nonprofessionals	55	15

NOTE.--Because of rounding, percent detail do not add to 100.

Staff Training

ESEA title I funds were also expended for training programs to increase staff members' understanding of the problems of neglected children and to encourage new approaches to education within an institutional setting. Table B summarizes the amount of training staff members received.

Table B.--Training received by staff in State institutions for neglected school-age children, by number and type of staff: ESEA title I funds, United States, fiscal year 1971

Type of staff	Number of staff trained	Percent of staff trained	Total hours of training	Average hours of training per staff member
Total	215	100	3,391	16
Teachers	109	51	1,932	18
Other professionals	27	13	824	31
Education aides	51	24	330	6
Other nonprofessionals	28	13	305	11

NOTE.--Because of rounding, percent detail do not add to 100.

Total ESEA Title I Funds Approved and Expended

In fiscal year 1971, $1.8 million was approved for ESEA title I programs and program-related expenditures in institutions for neglected children. Of this amount, $1.6 million was actually expended within that year, with summer programs accounting for an estimated 26 percent of the total. Two States, Connecticut and Tennessee, did not provide summer activities.

Participation in and Expenditures for Instructional and Supporting Services

Instructional services directed to the development of basic skills accounted for 58 percent of the total ESEA title I funds expended by institutions for neglected youngsters. To assure the maximum impact of title I programs, various supporting services were offered in addition to direct instructional services. Participation in and expenditures for instructional and supporting services are presented in table C.

Table C.--Participation in and expenditures for instructional and supporting services for neglected children living in State institutions: ESEA title I funds, United States, fiscal year 1971

INSTITUTIONS FOR THE DELINQUENT

Pupil Participation by Type of School Attended

Institutions for delinquent children in 48 States and the District of Columbia reported participation in programs funded under ESEA title I. Over 50,000* children resided in these institutions. Throughout the year

* As of October 1, 1970.

a total of 48,623 children (96 percent of the resident count) directly participated in title I programs (table D). A total of $12.8 million in all categories was expended for these programs during fiscal year 1971. (Data concerning institutions for the delinquent are presented in basic data tables 10-A through 18.)

Table D.--Participation in programs for delinquent school-age children living in State institutions, by type of enrollment and level of schooling: ESEA title I funds, United States, fall 1970

NOTE.--Because of rounding, percent detail may not add to 100.

Although the foregoing table indicates that almost all participants were enrolled in schools within their institutions, five of the reporting States reported none enrolled in institution schools at the elementary level and one State reported none at the secondary level. Of those enrolled in public schools outside the institutions, all of the elementary pupils were found in 2 States, New Mexico and Oregon, while the secondary pupils were found in 11 States. The only State with elementary pupils enrolled in nonpublic schools outside the institution was Missouri; those with secondary pupils enrolled in such schools were Arkansas, Maryland, Missouri, and Pennsylvania. A total of 13 States reported children who were not enrolled in school but who were title I participants. Participants at the elementary level were reported by 6 States and participants at the secondary level by 12 States.

Dropouts

Prior to admission to an institution, 14 percent of the participants were school dropouts. Table 11 indicates that pupils in this category were reported by 29 of the 48 States having title I programs and by the District of Columbia.

Staff Positions

More than $9 million in ESEA title I funds were expended for salaries of 2,525 staff positions in institutions for delinquent children. Most of the funds were allocated to teachers, who consituted 50 percent of all employees receiving all or part of their salaries from title I. The States reported wide differences in expenditure levels; teachers' salary payments, for example, ranged from an average of $1,080 per teacher in Massachusetts to $11,378 per teacher in Indiana.

The staff positions were distributed as follows:

Type of staff	Number	Percent
Total	2,525	100
Teachers	1,252	50
Other professionals	329	13
Education aides	504	20
Other nonprofessionals	440	17

Staff Training

ESEA title I funds were also expended for training programs to increase staff members' understanding of the problems of delinquent children and to encourage new approaches to education within an institutional setting. Table E summarizes the amount of training that staff members received.

Table E.--Training received by staff in State institutions for delinquent school-age children, by number and type of staff: ESEA title I funds, United States, fiscal year 1971

Total ESEA Title I Funds Approved and Expended

In fiscal year 1971, Federal funds totaling almost $15 million were approved for ESEA title I programs and program-related expenditures in institutions for delinquent children. Of this amount, nearly $13 million, or 87 percent, was actually expended within that year. Only eight States reported using all their fiscal year 1971 grants. Summer programs accounted for an estimated 16 percent of the total expenditures.

Participation in and Expenditures for Instructional and Supporting Services

Instructional services directed to the development of basic skills accounted for $7,669,251, or 60 percent, of the total ESEA title I expenditures by institutions for delinquent youngsters. To assure the maximum impact of title I programs, various supporting services were offered in addition to direct instructional services. Participation in and expenditures for instructional and supporting services are presented in table F.

PUERTO RICO AND THE VIRGIN ISLANDS

INSTITUTIONS FOR THE NEGLECTED

Neither Puerto Rico nor the Virgin Islands reported any institutions for the neglected participating in ESEA title I programs.

INSTITUTIONS FOR THE DELINQUENT

Puerto Rico and the Virgin Islands reported limited participation by institutions for the delinquent in ESEA title I programs. Puerto Rico spent approximately 8 percent of the $252,632 allotted to it, and the Virgin Islands spent 30 percent of its $17,342. In both outlying areas, all participation was in institutional schools. These data are not included in the basic tables but are summarized in table G.
